QUOTED COMPANIES ALLIANCE CORPORATE GOVERNANCE CODE 2018

Introduction:

The Board of Directors of the Company recognises the importance of sound corporate governance and applies The Quoted Companies Alliance Corporate Governance Code (2018) (the 'QCA Code'), which they believe is the most appropriate recognised governance code for a company with shares admitted to trading on the AIM market of the London Stock Exchange. It is believed that the QCA Code provides the Company with the framework to help ensure that a strong level of governance is maintained, enabling the Company to embed the governance culture that exists within the organisation as part of building a successful and sustainable business for all its stakeholders.

The QCA Code has ten principles of corporate governance that the Company has committed to apply within the foundations of the business. These principles are:

1. Establish a strategy and business model which promote long-term value for shareholders;
2. Seek to understand and meet shareholder needs and expectations;
3. Take into account wider stakeholder and social responsibilities and their implications for long term success;
4. Embed effective risk management, considering both opportunities and threats, throughout the organisation;
5. Maintain the board as a well-functioning balanced team led by the Chair;
6. Ensure that between them the Directors have the necessary up to date experience, skills and capabilities;
7. Evaluate board performance based on clear and relevant objectives, seeking continuous improvement;
8. Promote a corporate culture that is based on ethical values and behaviours;
9. Maintain governance structures and processes that are fit for purpose and support good decision-making by the Board; and
10. Communicate how the Company is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders.

Chair's Corporate Governance Statement:

On behalf of the Board, I am pleased to present the Corporate Governance Report. We at Trinity believe that strong corporate governance is critical to achieving our strategic goals and creating value for our shareholders. As Non-Executive Chair of the Group I have a keen interest in ensuring that an effective and focused Board leads the business and builds upon its successes to date.

Following the requirement by AIM that all AIM quoted companies comply with a recognised corporate governance code, the decision was made by the Board that the Group would adopt the QCA Code. The Board believes the QCA Code to be the most appropriate recognised corporate governance code for the Group. During the year under review, the Board continued to uphold the principles of the Code and ensured that the Group complied with the QCA Code in all aspects of the business. Details of the principles of the Code and how the Group applies them are detailed within the 2022 Annual Report and on the Group's website.

The Board is committed to ensuring good corporate governance, at Board level and throughout the business. The Board and management team was restructured and strengthened in 2021 following the sudden passing of our founder and Executive Chair Bruce Dingwall, CBE. During 2022 the management team was further reinforced by the recruitment of Julian Kennedy (Chief Financial Officer), Alistair Green (Development Manager) and, more recently in April 2023, Mark Kingsley (Chief Operating Officer). In August 2023, Julian Kennedy joined the Board as an Executive Director and Jon Cooper was appointed as an Independent Non-Executive Director. We welcome them all and look forward to driving the business forward with their assistance.

Angus Winther completed two full terms as a Non-Executive Director and specifically in the role of the Audit Committee Chair. Therefore, he decided not to stand for re-election at the 2023 Annual General Meeting which coincided with his taking on greater levels of responsibility in other roles outside of Trinity. We want to express our thanks and that of our fellow Directors for his conscientious stewardship of the Audit Committee since 2017. On joining the Board in August 2023, Jon Cooper was appointed Chair of the Audit Committee. Jon qualified as an accountant with KPMG, is a Fellow of the ICAEW and holds a PhD in Mechanical Engineering. He has more than 25 years' experience in mergers, acquisitions, public offerings and financings in banking and the oil and gas industry.

As Non-Executive Chair it is my duty to ensure that good standards of governance are delivered and fed down throughout the organisation. The Board, as a whole, looks to instil a positive culture across the Group, delivering strong values and behaviours. The importance of delivering the Group's objectives in a manner consistent with our values is at the forefront of the Board's thinking, as is ensuring that this culture is fed down through the Executive Management Team and throughout the business. The principal risks facing the business, as set out in the Annual Report, are considered by the Board, recognising that strong governance across the organisation is essential to manage the risks and challenges that the Group faces.

In 2023 the Board has continued to work effectively to ensure that the strategy can continue to be delivered and goals met, whilst ensuring the risks are monitored and a culture of support and safety is provided to all stakeholders, including employees, suppliers and the wider environment in which the business operates. To emphasise the criticality of the HSSE and ESG functions within the Company, Kaat Van Hecke is the Board Champion to directly oversee the governance in these areas.

As the Group builds the next phase of development for the business, as Non-Executive Chair, I will work with the Board to cement the existing values that are in place and ensure that good corporate governance and strong principles continue to be present throughout the organisation, for the benefit of all stakeholders.

Nicholas Clayton
Non-Executive Chair

Website disclosures:

The QCA Code requires us to apply the ten principles and publish certain disclosures in our annual report and also on our website. Our website disclosures are as follows:

Principle Two - Seek to understand and meet shareholder needs and expectations.

Disclosure: explain the ways in which the Company seeks to engage with shareholders.

The Company's Annual Report and Notice of Annual General Meetings (AGM) are sent to all shareholders and can be downloaded from our website. Copies of these documents for the last five years, and the Interim Report and other investor presentations are also available on the Company's website.

Shareholders are kept up to date via regulatory news flow ("RNS") on matters of a material substance and regulatory nature. Quarterly updates are provided to the Market and any deviations to these updates are announced via RNS.

Our AGM is an annual opportunity for shareholders to meet with the Chair and other members of the Board. The meeting is open to all shareholders, giving them the option to ask questions and raise issues during the formal business or more informally following the meeting.

At the AGM, separate resolutions are proposed on each substantial issue. For each proposed resolution, proxy forms are issued which provide voting shareholders with an opportunity to vote in

advance of the AGM if they are unable to vote in person. Our registrars, Link Group, count the proxy votes which are properly recorded and the results of the AGM are announced through an RNS.

The Board is keen to ensure that the voting decisions of shareholders are reviewed and monitored and that approvals sought at the Company's AGM are as much as possible within the recommended guidelines of the QCA Code.

The Chair responds to shareholder queries directly, where appropriate, (whilst remaining cognisant of the UK Market Abuse Regulations' restrictions on inside information and within the requirements of the AIM Rules for Companies). Non-deal roadshows are arranged throughout the year to meet with existing shareholders and potential new stakeholders to maintain, as much as possible, transparency and dialogue with the Market. Investor presentations and interviews can be found on the Company's website.

Shareholders with queries should email info@trinioil.com.

Principle Three: Take into account wider stakeholder and social responsibilities and their implications for long term success

Our business model and strategy are clear and is set out in our Annual Report. The vision of the business is to grow reserves and production through exploration and development and partnering with other businesses is the key to build our success. Delivery of our business model is underpinned by our core values of Behaviour, Rigour and Purpose:

Behaviour – that mirrors professionalism, respect and fairness; **Rigour** – initiate thought before action; **Purpose** – fit for delivering our business goals.

We value the feedback we receive from our stakeholders and we take every opportunity to ensure that where possible the wishes of stakeholders are considered. The Executive team is a small and dedicated team who work hard to ensure that values of the Company are an integral part of the business. The Board works closely with the Executive team with clear and open communication both within and outside of the Board room. All Directors have access to the Company's NOMAD, Company Secretary, lawyers and auditors as and when required and are able to obtain advice from other external bodies when necessary.

Principle Seven: Evaluate board performance based on clear and relevant objectives, seeking continuous improvement

Disclosure: A description of the Board performance evaluation process.

The Directors consider seriously the effectiveness of the Board, Committees and individual performance.

The Board meets formally ten to twelve times per year with additional ad hoc meetings as the business demands. There is a strong flow of communication between the Directors. The Agenda is set with the consultation of both the CEO and Chair, with consideration being given to both standing Agenda items and the strategic and operational needs of the business. Papers are circulated well in advance of the

meetings, giving Directors ample time to review the documentation and enabling an effective meeting. Resulting actions are tracked for appropriate delivery and follow up.

The Board entered 2023 looking forward to building further on the governance structure already in place. On-going review of the functioning of the Board and ensuring that the highest level of governance is maintained whilst being mindful of the size and stage of development of the Company. Whilst the Board has not undertaken any formal training this is something that will be considered as the business grows and the Board establishes further.

The Directors have a wide knowledge of the business and requirements of Directors' fiduciary duties. The Directors have access to the Company's NOMAD, lawyers and auditors as and when required. They are also able, at the Company's expense, to obtain advice from external bodies if required. The Board as a whole is mindful of the need for considering succession planning.

Principle Eight: Promote a corporate culture that is based on ethical values and behaviours

Disclosure: how the Board ensures that the Company has the means to determine ethical values and behaviours

The Directors are committed to ethical values and behaviours across the Board and the Company as a whole. The Directors are mindful of the industry that the business operates in and takes all issues of ethical behaviours seriously. These behaviours are instilled throughout the organisation. The importance of delivering success in a safe environment is not undermined.

Issues of bribery and corruption are taken extremely seriously. The Company has a zero-tolerance approach to bribery and corruption and has an anti-bribery and corruption policy in place to protect the Company, its employees and those third parties to which the business engages with. The policy is provided to staff upon joining the business and training is provided to ensure that all employees within the business are aware of the importance of preventing bribery and corruption. Each employee is required to sign an agreement to confirm that they will comply with the policies. Annually staff are provided with refresher courses to ensure that the issues of bribery and corruption remain at the forefront of people's mind. There are strong financial controls across the business to ensure on going monitoring and early detection.

A whistleblowing policy is in place, which enables staff to raise any concerns in confidence. The Compliance Officer has assumed the role of whistleblowing officer.
