Trintes Field Update

Trinity Exploration & Production plc (AIM: TRIN), the independent E&P company focused on Trinidad and Tobago, provides this update to its announcement of 12 April 2023 regarding Trinity's Bravo Platform in the Trintes Field, offshore east coast Trinidad on Monday 10 April.

Following approval from the Ministry of Energy and Energy Industries, received on Monday evening 17 April, the Company successfully restored oil production from all previously producing wells on the Bravo platform during Tuesday 18 April.

As previously announced, Alpha and Delta platforms restarted oil production from all previously producing wells on Tuesday 11 April 2023.

Prior to the incident, oil production from the Bravo platform accounted for approximately 350 bopd. Total Trintes field production is approximately 1,010 bopd.

About Trinity (www.trinityexploration.com)

Trinity is an independent oil production company focused solely on Trinidad and Tobago. Trinity operates producing and development assets both onshore and offshore, in the shallow water West and East Coasts of Trinidad. Trinity's portfolio includes current production, significant near-term production growth opportunities from low-risk developments and multiple exploration prospects with the potential to deliver meaningful reserves/resources growth. The Company operates all of its ten licences and, across all of the Group's assets, management's estimate of the Group's 2P reserves as at the end of 2021 was 19.73 mmbbls. Group 2C contingent resources are estimated to be 47.22 mmbbls. The Group's overall 2P plus 2C volumes are therefore 66.95 mmbbls.

Trinity is quoted on AIM, a market operated and regulated by the London Stock Exchange Plc, under the ticker TRIN.
